## PROJECTS

**3rd Place - Attendance Manager** — *GDSC TCET AndroidBuzz Hackathon*

We build an android app using kotlin. This app is used to show absent students lists.

**3rd Place (College Round) - Project Placement & Connect**— *SIH 2022*

We build a website using flask  to store & retrieve data of college placements to allow better policy making, ranking & statistical analysis.

**CODESHASTRA 8.0** — GDSC DJSCE *Sleep Monitoring using Laptop cam*
We build a website that helps users to find patterns or irregularities in their sleeps.

**SSOC(SOCIAL SUMMER OF CODE)**—  *SSOC 2022*

An open source project , In which I contributed in Webeginner-projects repository where we build a website which combines app projects of this repository.
